<sup>\*</sup> Home schools are not required to match public school curriculum but it's worthwhile to consider what is being taught.

See https://www.doa.nc.gov/divisions/non-public-education/home-schools

"G.S. 115C-563(a) gives the legal definition of a home school. It allows the parent, legal guardian, or a member of the two-family home school the discretion to determine the scope and sequence and sources of the academic instruction including, but not limited to, the use of professional educators, tutors, and other persons knowledgeable about the subject of instruction."
